Flat key
caps

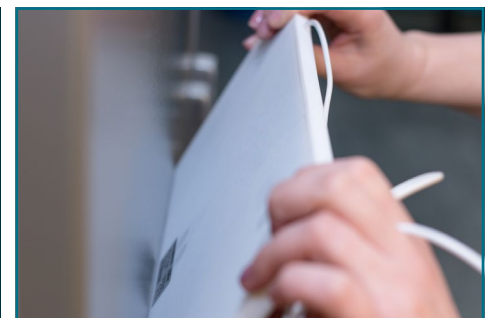

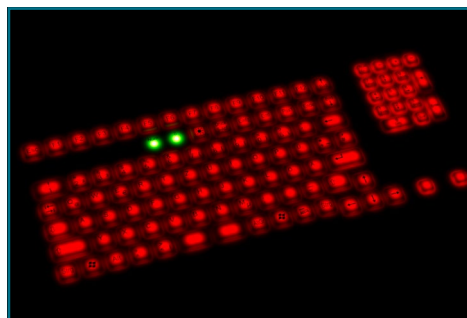

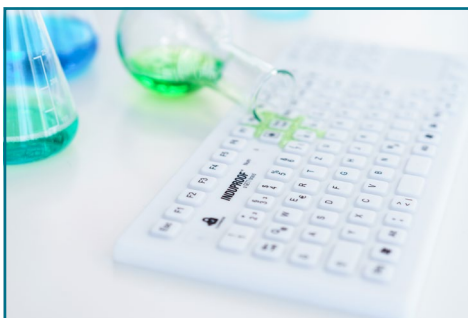

Capacitive
touchpad

Clean. Back-lighting. Magnetic.

The InduProof® Smart Pro plays a key role in ensuring that operators have a hygienic working environment. It can be thoroughly cleaned and disinfected with its waterproof and dustproof surface. The keyboard impresses users with its high-quality workmanship and special features. It can be mounted on magnetic surfaces in a flexible way and is suitable

for dark working environments with its different degrees of lighting. The „all-in-one“ solution can be adapted to satisfy almost any customer requirements. It is possible, for example, to incorporate customer logos, changes to key layouts and symbols or other colours without any great effort. We even manufacture and individualise very small numbers of items..

- Pleasant operating feel
- Can be mounted with magnets in a flexible way
- Suitable for touch typing
- Robust structure and long-lasting quality
- Thorough disinfection with a wipe
- Four-stage lighting system
- Integrated touchpad
- Cleaning without triggering any incorrect commands

InduProof® Smart Pro

The „all-in-one“ keyboard
for clean jobs!
