

InduSmart® Panel-PC GreenLine 10,1"

PRODUCT PROPERTIES

- The Indusmart® Panel PC GreenLine is based on the proven single board computer Raspberry PI3 Model B+. This board is so well known and widespread that there are a large number of operating systems and applications freely available for it. These are available and documented in the corresponding communities.
- This product is an inexpensive entry for use in normal relatively clean environments.
- The Indusmart Panel PC GreenLine has a plastic housing with a variety of features. The projected capacitive touch enables contemporary operation. Thanks to an integrated stand and a VESA mounting, the panel can be used almost anywhere.
- The panel has a prepared selection menu for different operating systems, so the user has the possibility to install the one that suits him best.
- Built-in stereo loudspeaker
- System with integrated fan
- HDMI and USB-C input ports
- Adjustable backlight
- Support for image rotation
